FESTIVAL .- We are requested to announce that the ladies of the Methodist Parsonage Association will have a festival in the Thespian Hall about the first of March, for the purpose of raising funds for building the parsonage. All contributions for that purpose will be gladly received. The good people of Winnsboro will no doubt liberally patronize the Methodist Parsonage Association on the night of the festival.

THE BACONIAN SOCIETY .- The young men in town are contemplating the reorganization of the Baconian Debating Society at an early day. This society lived and flourished for over a year in Winnsboro and doubtless resulted in much improvement to the individual members of the organization. It is to be hoped therefore that the movers in the matter will succeed prhood have this season planted large- in resuscitating the Debating Society small grain, which is looking and that a larger enrollment of members will be reported than last year.

FRANK LESLIE'S POPULAR MONTHLY. -The March number is, we think, one of the best yet issued of this deservedly favorite magazine. The 128 quarto pages are filled with choice, entertaining and instructive literature; and there are over one hundred handsome embellishments, besides a very tasteful colored plate frontispiece, "A Wood-nymph." The articles embrace various subjects, and are by popular writers. "Sondan and its Complications," "Napoleon's Marshals," "Living Homes," "The New York Negro Plot of 1741," etc., are exceedingly interesting. Etta W. Pierce's serial. "A Dark Deed," is continued, and there are short stories, sketches, etc., by Nathan D. Urner, Isabella Crawford, N. Robinson, Etta W. Pierce, K. V. Hastings and others. There are poems of great merit, and a comprehensive miscellany of pleasant reading matter. The price is only twenty-five cents for a single number, and a year's subscription \$2.50, postpaid. Address Mrs. Frank Leslie, Publisher, 53, 55 and 57 Park Place, New York.

THE STORM AT SHELTON .- A COTTEScondent writing to THE NEWS AND HERALD from Shelton says: "A most destructive evclone or hurricane passed through the northwestern corner of Fairfield county on Tuesday evening, the 19th inst., entering this county at a point on Broad River about three miles above Shelton's Ferry, taking a northeastern course, and from a half to three-fourths of a mile in width, striking the Chester line, near the residence of Mr. Chesley Crosby. The damage done is immense. The decomplete. The following are the principal sufferers: Mr. Wm. Shirley, all his buildings gone; Mr. V. The track of this ruin cannot be described. A man will have to see it to believe it. Strange no otherlives were lost and none crippled."

MEMORIAL WINDOW .- The friends of the late Rev. Josiah Obear have erected, in St. John's Church, Winnsboro, to his memory a rich and beautiful stained glass window. The central figure consists of the "Agnus Dei," 'the Book" and "the Seven Seals" of the Apocalypse. Near the top is "the Crown," exquisitely portrayed, with sprays of the symbolic palm leaf: whilst below is the sacred monogram of Christ, the Greek Chi Rho. Many other beautiful and typical figures eugraceful traceries of leaves and flowers cover the entire surface of the window. Just above the ventilator is this inscription in old English characters:

In Memory of The Rev. Josiah Obear, for 16 years Rector of this Parish. Born 24 Jany., 1810, Died 25 Feby.

"Faithful unto death." A border of blue and gold surrounds the whole. The design and execution of this splendid window are really very fine, and afford the highest gratification to those who feel so deep an interest in this grateful work. It is a worthy and fitting memorial of the pure and upright man, and faithful clergyman, who served his people so long and so lovingly.

But even with this advantage to begin with, it is now seriously questioned by many whether or not the public school system, as it stands, accomplishes much good. They seem to be haunted with the idea that they must, to be good officers, spend every dollar in the treasury. They put from \$5 to \$25 in every mud-hole and sandstone work to be found and put up railing by gullies that heve stood from infancy unprotected. They hire men from one community to go with team and hands to do, for a considerable fee, what the owner of the land adjoining could do for almost nothing. They publish specifications as to what kind of wood, what shape, and so many feet high, in putting up sign-boards, when the contractors stick up anything, of any shape, and sometimes get their pay before the work has begun. They are building a trestle bridge over a broad creek bottom which there will not pass as many wagons in a twelve-month as pass along the Bell's Bridge road in one day. It must be built for the good church-going people of that neighborhood, and if so, I am of the opinion that they should pay for their private enterprise. I think a county commissioner should be very careful of expenditures and not have a thing done till he is sure it is a public necessity-instead of which they have men who hunt up jobs on which they can ty pap, and let us pay his taxes next time if money is too plentiful.
